

ACCOMMODATIONS INFORMATION & MEASURES - COVID 19

Camping Albufeira has fixed accommodation for rent, namely mobile homes and bungalows. There are bungalows and mobile homes for 4 people and mobile homes for 6 people. There are no bungalow for 6 people.

The bungalows are located in the camping area and have a terrace with a table and benches.

The mobile homes are located in different areas just for this type of equipment, they have a small garden with a table and chairs. These areas have limited access to customers of accommodations.

High season bookings (June to September) are only accepted for a minimum of 7 nights, always with entry and exit on Saturdays. Check-in from 5 pm to 11 pm and check-out until 10 am.

Pets are not allowed in the accommodation neither smoking.

Camping Albufeira reserves the right to request a security deposit upon check-in for any damage caused during the stay.

- 👉 Microwave;
- 👉 Toaster;
- 👉 Electric Pitcher;
- 👉 Wand;
- 👉 Kitchen towels;
- 👉 Table cloth meals;
- 👉 Air conditioning (cold and hot);
- 👉 One week stays change of towels on Wednesday. Stays longer than a week, change on Wednesdays and Sundays. Delivery service only;
- 👉 There is no daily cleaning service;
- 👉 There is no breakfast or meal regime included;
- 👉 Child's cot, not included. To be requested when booking;

WITHIN THE CURRENT CONJUNCTURE WITH REGARD TO THE PANDEMIC CORONAVIRUS COVID 19, NEW MEASURES ARE IMPLEMENTED WITH REGARD TO ACCOMMODATIONS

- 👉 Changed the check-in and check-out times in order to allow hygiene and disinfection to be carried out carefully and without haste, but also to allow the "rest" time of accommodation between customers, to be longer.
- 👉 Cleaning and disinfection of the AC after each check-out.
- 👉 Cleaning and disinfection of the accommodation, materials, equipment and textiles after each check-out, taking care to naturally ventilate the entire accommodation after check-out and during cleaning.
- 👉 We eliminate cleaning using vacuum cleaners with dust filters and opt for water cleaners and HEDA filters that retain all particles inside the equipment.
- 👉 Cleaning and collection of dirty clothes according to DGS guidelines.
- 👉 We opted for the acquisition of ozone generators, which will be used after cleaning and disinfecting the housing. This equipment, after being cleaned and disinfected, is placed in the housing with the function of purifying the air and any surface that is in contact with oxygen, such as furniture, equipment, textiles, etc. This equipment removes CO2 from the space and renews oxygen leaving the housing with clean and renewed oxygen.
- 👉 Plastic bags for dirty clothes (yellow bags) are available in each accommodation so that users during their stay can put dirty clothes that they do not use again. They should keep the bag closed. In the middle of the rental week (Wednesday), fresh towels will be delivered to each accommodation and the dirty towels will be collected, which should be in the yellow bag, closed and placed at the door of the accommodation. The cleaning staff will collect the dirty laundry that must be closed in the bag and towels will be delivered, washed, sanitized, packed and sealed at the door of the accommodation. For bookings of two weeks or more, towel changes are made on Wednesdays and Sundays. Regarding sheets, the exchange is made only for rentals longer than one week. If there is a need to exchange for any incident, or to reinforce other textiles, you should request a change of sheets and reinforcement of textiles that you need at the reception.
- 👉 Users are requested on the day of departure to collect the dirty clothes, sheets, kitchen towels and towels, place them in the yellow bag and close the bag. This way our employees do not have to touch the clothes used by the users and we will be in this way to preserve them.
- 👉 The clothes are collected, taken in their own transport for dirty clothes, directly to our laundry, which will be sanitized, disinfected, packed and sealed.
